

The Battlefield Sports Urban Inflatables™ have been classified compliant to DIN 4102-1-1998 Class B1. "DIN 4102 - Part 1, B1 (1998) Reaction to fire tests - Ignitability of building products subjected to direct impingement of flame."

As shown in the table below the construction of the inflatables passed the component parts of the B1 standard. This means the materials of construction could be described as "hard to ignite" and "often self extinguishing"

Test Part	Test Item	Standard Required	Test Result	Conclusion
1	Minimum Residual Length (mm)	>0	384	Pass
2	Average Residual Length (mm)	≥150	391	Pass
3	Average effluent Temperature (°C)	≤200	132	Pass
4	Flame Height	<150, No molten dripper ignite the filter paper	Meets the Required Standard	Pass

Test Item	Test Required	Conclusion
DIN 4102-1-1998	Class B1	Pass

The tests were certified by SGS Group and were carried out in an external laboratory, assessed as being competent.

The Test report number is SC080120021 carried out on 26th February 2008.
